# the Redesign High School Industry Credential

Earn credit while you improve school for those who follow

## Core Learning

**(Black) Teen Literacy Matters**  
A Transformational Industry Credential  
+ an ecosystem for many to come.

The system of Industry Recognized Credentials is not working as envisioned. In most states, Black teacher candidates are a tiny fraction of the population. Reading instruction is a much more demanding profession than many terms perceive. In half our schools of education, the basic principles of how kids learn to read still are not taught.

Many teenagers are sleepwalking through high school, and our high schools are sleepwalking through the twenty-first century. There's a lot of talk about reimagining high schools, but very little transformative action.

Public Satisfaction: 43% satisfied, 57% dissatisfied  
Student Engagement: 79% satisfied, 21% dissatisfied  
Sense of Belonging: 51% improved, 49% worsened

## Interest-specific

**Making Stuff—Advanced Manufacturing & Much More**  
A Transformational Industry Credential  
+ an ecosystem for many to come.

The system of Industry Recognized Credentials is not working as envisioned. As AI skills the economy, manufacturing technologies, robotics, and production jobs will replace many jobs centered on text and media creation. Our schools are today not ready to teach this, and the system of IRCs is not evolving in a way to address this text as is needed.

Many teenagers are sleepwalking through high school, and our high schools are sleepwalking through the twenty-first century. There's a lot of talk about reimagining high schools, but very little transformative action.

**Language of the Land**  
A Transformational I.R.C for Radically Inclusive R&D + an ecosystem for many to come.

Many jobs center on caring for or transactions involving land or real estate. Land control and use has been a central component for nearly all of written history. We'll also use this as a vehicle for upgrading literacy skills and understanding of the struggles of families over the centuries.

Many teenagers are sleepwalking through high school, and our high schools are sleepwalking through the twenty-first century. There's a lot of talk about reimagining high schools, but very little transformative action.

**Civics Next**  
We Are All Princes—A Duty-Centered Civics Curriculum  
A Transformational I.R.C for Radically Inclusive R&D + an ecosystem for many to come.

The most important job we'll hold is Citizen. Can the system of Industry Recognized Credentials help return us to a focus on duty?

As part of a broader High School Design credential, students will investigate options for upgrading Civics education. They'll start with a comparison of today's rights-based lessons with yesterday's duty-centered curricula.

Many teenagers are sleepwalking through high school, and our high schools are sleepwalking through the twenty-first century. There's a lot of talk about reimagining high schools, but very little transformative action.
